Light C

Light M

Light gray

Cyan: 100 to 0% and 50 to 0%

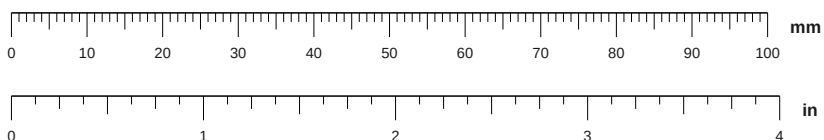

Magenta: 100 to 0% and 50 to 0%

Gray: 100 to 0% and 50 to 0%

Light inks mostly fire in the pale end of each ramp. The printer driver chooses them; a web page cannot address them directly.

Scale check

Measure both rulers. If they read 100 mm and 4 in, the page printed at true size. Each corner cross should sit 10 mm from both edges. A missing cross means cropping.
